

All Environmental Conventions & Organisations

Silent Spring is an environmental science book by Rachel Carson. Published on September 27, 1962, the book documented the environmental harm caused by the indiscriminate use of pesticides.

It meticulously described how DDT entered the food chain and accumulated in the fatty tissues of animals, including human beings, and caused cancer and genetic damage.

Bioaccumulation

Bioaccumulation takes place in a single organism over the span of its life, resulting in a higher concentration in older individuals.

Biomagnification takes place as chemicals transfer from lower trophic levels to higher trophic levels within a food web, resulting in a higher concentration in apex predators.

Bioaccumulation → Same organism

Biomagnification → b/w Trophic Level

Timeline of Environmental Convention

① 1972 - UN Conference on Human Environment (Stockholm Conf.)

- Stockholm, Sweden.
- emergence of Int. Environmental Law.

— Stockholm Declaration — principles for environment conservation
— Pollution policies, Wildlife, Natural Resources, Weapon of Mass Destruction, etc etc

India (Indira Gandhi)

Ecological Mang ↔ Poverty Reduction

Wildlife Protection Act, 1972

Min of Envi (1985)

② United Nation Environment Programme

- HQ - Nairobi, Kenya
- 5 June 1972 (50 years)
- assist developing countries to implement environmental policies

① WMD + UNEP → Intergovernmental Panel on climate change (IPCC) (1988)

② Implementing Agencies of Global Environment Facility & Multilateral fund for the Implementation of Montreal Protocol.

③ UNEP holds secretariats of:

- CBD
- MCIM
- CMS
- CITES

Global Environment Facility (GEF)

- est @ Rio Earth Summit (1992) — independent financial orgⁿ.
- biodiversity, REDD+, climate change, ozone layer, POPs $\Rightarrow$ Provide grant to related activities.

- serves as financial Mechanism for

- CBD
- UNFCCC
- UNCCD
- MCIM

Stockholm Convention on POPs

③ 1972 - Limits to Growth Report - Club of Rome Related Paper.

- MIT Research Team @ Donald Meadows
- beyond a limit, development cannot possible.
- limit of our ecosystem to absorb waste & replenish raw materials; — world collapsed by 21st century.
- 5 variable used — Population, Pollution, Agricultural Productⁿ, Natural Resources, Industrial Production.

④ 1985 - Vienna Convention for Protection of Ozone layer

$\rightarrow$ Austria

- ⑤ 1987 - Montreal Protocol - for ozone protection
└ stratospheric ozone
- phase out ozone depleting substance.
- first and only global environment treaty → universal ratification
(197 parties)

- ⑥ 1987 - Brundtland Report (Our Common future)
- by World Commission on Environment and Development.
(Brundtland Commission) → 1983, created by UN
- 'Sustainable Development' coined

- ⑦ 1988 - Intergovernmental Panel on Climate Change
↓
UNEP + WMO (Intergovernmental Body; H.Q: Geneva)
- does not carry its own research. Share works of various working group as Assessment Reports
- 1st Report - 1990
↓
Recently 6th Report.
human induced climate change, impacts, mitigation & adaption.

⑧ 1992 - United Nation Conference on Environment & Development (UNCED) / Earth Summit

↓
20 years to
Stockholm Conference

↓
Rio de Janeiro (3-14 June)

→ Development + Environment Integration

✓ Imp. Initiatives

① Global Environment facility.

Important Agreements

① UNFCCC - United Nation Framework Convention on Climate Change.

- 1992 signed (198 parties) → entered into force 1994.

- provide framework for negotiating protocols - to set binding limits on GHGs.

- not legally binding.

- Conference of Parties - Parties to convention meet annually to assess progress.

COP 3 - Kyoto Protocol - legally binding obligation for developed (1997) countries to reduce GHGs.

2002 - COP 8 - Delhi

2005 - COP 11 - Montreal, Canada

CMP 1 - Kyoto Protocol Ratified

2015 - COP 21 - Paris (Paris Agreement)
(CMP 11)

2016 (22) ↓	2017 (23) ↓	2018 (24) ↓	2019 (25) ↓	2021 (26) ↓	2022 (27) ↓	2023 (28) ↓
Marrakesh, Morocco	Bonn, Germany	Katowice, Poland	Madrid, Spain	Glasgow (UK + Italy)	El Sheikh, Egypt	Expo City, Dubai

- 3 categories of Parties

Annex I

Industrialized
Countries; 40 +
(EU)

Annex-II

Developed
Countries
(play financial role
in development of
developing countries)

Developing
Nations

② UN-CBD - Convention on Biological Diversity

- legally binding treaty.
- All UN Members (except US) ratified it.

3 goals

① conservation of Biological Diversity

② Sustainable utilisation of its Benefit

③ fair and equitable sharing of benefits arising from genetic resources

Two Supplementary Agreement:

Cartagena Protocol on Biosafety (2000)

- safe handling, transport and use of LMOs.
- India ratified.

Nagoya Protocol on Access and Benefit Sharing (2010)

- India is party.

International Treaty on Plant Genetic Resources for Food and Agriculture (2001) → force 2004

- aka International Seed Treaty.
- ensure food security thr conservation of plant genetic resources.

3 Imp Documents

⑨ 1994 - UNCCD - UN Convention to Combat Desertification

HQ - Bonn, Germany

- 1994 signed
- prevent and reverse land degradation.
- Legally Binding. India ratified (1996)
- Recommendation of Rio conference Agenda 21.

⑩ 1997 - Kyoto Protocol

- Adopted - 1997 ; force - 2005 (16th feb)
- 1st commitment period : 2008-12
- 2nd " " : 2013-2020
- set internationally binding emissions target.

Common But Differentiated Responsibility - reduce current emission on the basis of historic responsibility.

Flexibility Mechanism

① International
Emission Trading

② Clean Development
Mechanism

③ Joint
Implementation

⑪ 2002 - World Summit on Sustainable Development

- Rio + 10

- Johannesburg Declaration

⑫ 2005 - Kyoto Protocol Ratified

⑬ 2008 - UN REDD Programme Hd: Geneva

→ Reducing Emissions from Deforestation and Forest Degradation.

→ FAO + UNDP + UNEP

REDD + Program

- voluntary climate change mitigation prog developed by parties to UNFCCC.

- incentivize developing countries

⑭ 2012 - United Nation Conference on Sustainable Development

⑮ 2015 - COP 15 - Paris Deal (legally Binding)

- keep global avg temp to below 2°C above pre-industrial level, and limit the increase to 1.5°C.

NDC (Nationally Determined Contributions)

⑩ 2016: Kigali Amendment

- legally binding
- amendment to Montreal Protocol. → CFCs
- reduce consumption and production of HFCs. ↓
GHGs

Some Other Imp Treaties and Conventions

① Convention on Migratory Species (CMS) (or) Bonn Convention

- 1979, conserve migratory species.

② Ramsar Convention on Wetlands

- 1971 adopt.

③ Stockholms Convention on POPs (2001)

"Dirty Dozens"

Category	Persistent Organic Pollutant
Pesticides	• Aldrin • Chlordane • DDT • Dieldrin • Endrin • Heptachlor • Hexachlorobenzene • Mirex • Toxaphene
Industrial Chemicals	• Hexachlorobenzene • Polychlorinated biphenyls (PCBs)
By-Products	• Polychlorinated dibenzo-p-dioxins and Polychlorinated dibenzofurans (PCDD/PCDF)

④ Basel Convention (1989)

- Control of Transboundary Movement of Hazardous Waste

⑤ Rotterdam Convention (1998)

- global trade of hazardous chemicals

⑥ Minamata Convention (2013)

— prevent emission of Mercury.

GLOBAL AWAKENING

The treaties that emerged from the 1992 Rio summit followed several major environmental agreements and spawned a series of subsequent accords.
