

- **Critically Endangered Bird Species (CR)**

Species	Protection Status	Geographical Range/Habitat
White-bellied Heron	IUCN Status: CR	Foothills of the eastern Himalayas in India and Myanmar
Siberian Crane	IUCN Status: CR	Arctic tundra Region
White-rumped Vulture	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Gangetic plains of India
Indian Vulture	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Gangetic plains of India

Slender-billed Vulture	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Sub-Himalayan regions and Southeast Asia.
Red-headed Vulture	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Indian Subcontinent and SouthEast Asia
Bengal Florican	IUCN Status: CR UN Convention on Migratory Species: Appendix I	Grasslands of the Ganga and Brahmaputra river basin in India and Nepal.
Himalayan Quail	IUCN Status: CR	State of Uttarakhand
Jerdon's Courser	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Eastern Ghats
Pink-headed Duck	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Riverine swamps of India, Bangladesh and Myanmar
Sociable Lapwing	IUCN Status: CR	Open grassland in Russia and Kazakhstan
Great Indian Bustard	IUCN Status: CR Wildlife Protection Act Status: Schedule I CITES: Appendix I UN Convention on Migratory Species: Appendix I	It usually resides in dry grasslands and scrublands on the Indian subcontinent (especially in Rajasthan, Gujrat, in Pakistan)

- **Critically Endangered Mammals**

Species	Protection Status	Habitat
Malabar Civet	IUCN Status: CR Wildlife Protection Act Status: Schedule I CITES Appendix III	Western Ghats
Sumatran Rhinoceros	IUCN Status: CR	They are spread across India, Nepal, Bhutan, Indonesia and Malaysia. Left mainly in Sumatra and Borneo in Indonesia. These countries are also known as Asian Rhino Range Countries .
Javan Rhinoceros	IUCN Status: CR	
Large Rock-rat or Elvira Rat	IUCN Status: CR	Tropical dry deciduous shrub land forest, seen in rocky areas.
Namdapha Flying Squirrel	IUCN Status: CR Wildlife Protection Act Status: Schedule II	Found in Arunachal Pradesh in the Namdapha National Park
Asiatic Cheetah	IUCN Status: CR CITES: Appendix I	Open lands, small plains, semi-desert areas, and other open habitats where prey is available. Only 40-50 remain in Iran.
Andaman White-toothed Shrew	IUCN Status: CR	Found on Mount Harriet in the South Andaman Islands
Nicobar Shrew	IUCN Status: CR	Found in the southern tip of Greater Nicobar Island

		and Campbell Bay National Park
Jenkin's Shrew	IUCN Status: CR	Found on Wright Myo and Mount Harriet in the South Andaman Islands
Chinese Pangolin	IUCN Status: CR Wildlife Protection Act Status: Schedule I CITES: Appendix I	Himalayan foothills in Eastern Nepal, Bhutan, Northern India, North-East Bangladesh and through Southern China.

- **Critically Endangered Fishes**

Species	Protection Status	Habitat
Pondicherry Shark	IUCN Status: CR	Indo-Pacific Region
Knifetooth Sawfish	IUCN Status: CR	
Narrow snout or Green Sawfish	IUCN Status: CR	
Ganges Shark	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Freshwater, inshore marine, and estuarine systems in the lower reaches of the Ganges-Hooghly River system

- **Critically Endangered Reptiles**

Species	Protection Status	Habitat
----------------	--------------------------	----------------

Fish-eating Crocodile or Gharial	IUCN Status: CR Wildlife Protection Act Status: Schedule I CITES Appendix I	Freshwaters of the northern part of India. Primary Habitat: Chambal river
Four-toed Terrapin	IUCN Red List: CR CITES Appendix I Wildlife Protection Act, Status: Schedule I	Sundarbans eco-region
Red-crowned Roofed Turtle	IUCN Status: CR Wildlife Protection Act Status: Schedule I CITES: Appendix II	Currently, the National Chambal River Gharial Sanctuary is the only area with a substantial population
Leatherback	IUCN Status: CR Wildlife Protection Act Status: Schedule I	Indo-Pacific
Hawksbill Turtle	IUCN Status: CR Wildlife Protection Act Status: Schedule I	

• Critically Endangered Amphibians

Species	Protection Status	Unique Feature/Remarks
Anaimalai Flying Frog	IUCN Status: CR	Endemic to the southern part of the Western Ghats
Kerala India Frog	IUCN Status: CR	

• Endangered Species (EN)

Species	Protection Status	Habitat	Unique Feature/Remarks
Tiger	IUCN Status: EN Wildlife Protection Act Status: Schedule I CITES: Appendix I	Mostly found in 13 Tiger range countries viz.: Bangladesh,	Referred as Flagship and “umbrella species.”

		Bhutan, Cambodia, China, India, Indonesia, Laos, Malaysia, Myanmar, Nepal, Russia, Thailand and Vietnam. 70% of Tigers are found in India.	52 Tigers reserves in India. India has achieved the TX2 goal, which is a global commitment to double the world's wild tigers by 2022.
Asiatic lion	IUCN Status: EN Wildlife Protection Act Status: Schedule I CITES: Appendix I	Gir National Park and Wildlife Sanctuary is the only abode of the Asiatic lion.	Asiatic lions are slightly smaller than African lions. The most striking morphological character, which is always seen in Asiatic lions, and rarely in African lions, is a longitudinal fold of skin running along its belly.
Gangetic Dolphin	IUCN Status: EN Wildlife Protection Act Status: Schedule I CITES: Appendix I Convention on Migratory Species (CMS): Appendix II	Ganges-Brahmaputra-Meghna and Karnaphuli-Sangu river systems of Nepal, India, and Bangladesh.	Only live in freshwater They are essentially blind and hunt by emitting ultrasonic sounds. They are also called 'susu'. It is a reliable indicator of the

			health of the entire river ecosystem. It was recognised as the National Aquatic Animal in 2009, by the Government of India.
Pygmy Hog	IUCN Status: EN Wildlife Protection Act Status: Schedule I CITES: Appendix I	It thrives in wet grassland. Today found mainly in a small population in Assam.	They are the world's rarest and smallest wild pigs.
Kondana Rat	IUCN Status: EN	Only found in the small Sinhagarh Plateau near Pune in Maharashtra. Tropical and subtropical dry deciduous forests and tropical scrub.	They are nocturnal and live in burrows.
Forest Owlet	IUCN Status: EN CITES: Appendix I	Dry deciduous forest	Endemic to the forests of central India
Red Panda	IUCN Status: EN Wildlife Protection Act Status: Schedule I	Forests of India, Nepal, Bhutan and the northern mountains of Myanmar and southern China. Mixed deciduous and conifer forests with dense	The only living member of the genus Ailurus. It is also the state animal of Sikkim.

		understories of bamboo.	
Nilgiri Tahr	IUCN Status: EN Wildlife Protection Act Status: Schedule I	Open montane grassland habitat of rain forests ecoregion.	Endemic to the Nilgiri Hills and the southern portion of the Western Ghats. It is the state animal of Tamil Nadu Also, called Saddleback

- **Other Important Species**

Species	Protection Status	Habitat	Unique Feature/Remarks
Snow Leopard	IUCN Status: VU Wildlife Protection Act Status: Schedule I CITES: Appendix I	Mountainous regions of central and southern Asia.	Indicator of the health of the mountain ecosystem. Snow Leopard capital of the world: Hemis, Ladakh. Flagship species for the high altitude Himalayas. Project Snow Leopard was launched in 2009 for the conservation of snow leopards.
Pied Cuckoo	IUCN Status: NT	It is found in Africa and Asia.	Pied cuckoo is known for its close association with the monsoon in India.

			It is a brood parasite i.e. It lays its eggs in nests that belong to other birds. It is one of the few species that come to India in the summer.
Olive Ridley Turtle	IUCN Status: VU Wildlife Protection Act Status: Schedule I CITES: Appendix I	Odisha's Gahirmatha Marine Sanctuary is known as the world's largest rookery.	The Olive ridley turtles are the smallest and most abundant of all sea turtles found in the world
Amur Falcon	IUCN Status: LC	Southeastern Siberia and northern China	World's longest travelling raptors. Doyang Lake in Nagaland is better known as a stopover for the Amur falcons Nagaland is also known as the "Falcon Capital of the World".
Dugong	IUCN Status: VU Wildlife Protection Act Status: Schedule I	Gulf of Mannar in Tamil Nadu, the Andaman and Nicobar Islands and the Gulf of Kutch in Gujarat.	Only existing species of herbivorous mammals live exclusively in the sea. Dugong is also called 'Sea Cow'
